

## WHO WE ARE?

We are a group of **DEPENDABLE**, qualified and experienced vocational education professionals that have served the workers compensation industry for decades. We, at Caledonian, have proven our dedication and **EFFICIENCY** over years of continued service.

There is no greater responsibility than selecting a training program for your injured workers. You are making a decision, as a career counselor or law professional, that will directly affect the future of this individual and his/her family.

At CALEDONIAN we wish to share this responsibility with you.

## WE ARE READY TO BE THE SOLUTION

CALEDONIAN'S instructional methodology has made it possible for many injured workers under the California Workers Comp system and the U.S. Federal Workers comp system to return to work with their newly acquired skills. Additionally, we have been able to provide an enhanced quality of life to U.S. Veterans under Chapter 31, who otherwise could not have participated in traditional classroom settings.

Small classrooms sessions and one- on-one training available.

DOL Vocational counselors and VA counselors repeatedly state that they have continued to use our programs throughout the years because CALEDONIAN achieved results traditional instruction could not. Injured workers and students with disabilities were statistically more successful in our programs than in traditional classroom settings.

## OUR QUALITY

CALEDONIAN has built a reputation for our ability to train individuals in specific areas of study. We have trained individuals, IWs and veterans recovering from a variety of physical and psychological injuries.

We are experienced in developing effective training programs for students with learning disabilities such as dyslexia and ADHD.

### THE CALEDONIAN WAY

The Caledonian tutoring system is designed to help students become more responsible for, and more effective managers, of their own thinking and learning. "When Collaboration ends, the student's liberation begins."

# CALEDONIAN

Classroom and One on One Training

We, at Caledonian, believe that providing a comfortable environment and culturally supportive qualified staff is key to the injured worker's successful vocational rehabilitation.

OUR TEAM includes highly experienced educators, seasoned administrators and expert career counselors.

## HOW TO CONTACT US

Please call our Admissions department for more information. Our professional evaluations provide expert guidance and assist in determining the student's best training options and opportunities.
